# ENGAGEMENT OUTCOMES REPORT

## DRAFT DISABILITY INCLUSION ACTION PLAN

CONSULTATION: July 2021 - March 2022

## CONTENTS

This report provides a summary of community consultation for MidCoast Council's draft Disability Inclusion Action Plan 2022-2026, undertaken between July 2021 and March 2022. The aim of consultation was to gain feedback from the community on issues and solutions around the inclusion of people living with disability. The report is presented in six sections:

1. Background
2. Snapshot of outcomes
3. Summary and next steps
4. Methodology summary
5. Detailed data
6. Appendices – charts and submissions

## BACKGROUND

The Draft Disability Inclusion Action Plan is a four-year plan that provides strategies to improve accessibility and inclusiveness, as required by the NSW Government Disability Inclusion Act 2014. The plan provides a blueprint for staff and elected Councillors in ensuring our organisation is better equipped to understand and respond to the needs and perspectives of people living with disability, their carers, family, friends and service providers.

We sought feedback from the community, including people living with disability as well as their friends, families, carers, and service providers, on issues they face as well as potential solutions. The feedback was used in the preparation of the draft Disability Inclusion Action Plan. Once completed, the draft plan will be on exhibition for 28 days to allow final feedback from the community to inform the preparation of the final Disability Inclusion Action Plan. Once adopted by Council, this plan will guide our activities for the next four years as we seek funding and support to improve inclusion across the MidCoast.

This is Council's second Disability Inclusion Action Plan, providing opportunities to build and improve on earlier work as well as reflect changes in community need.

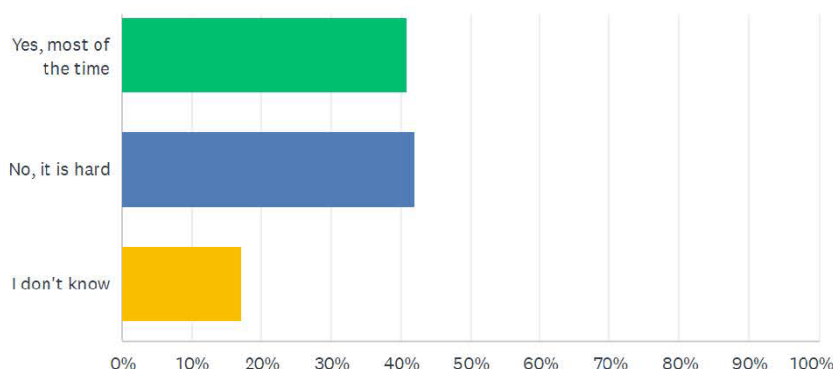

# DRAFT DISABILITY INCLUSION ACTION PLAN

## What you told us

Thank you for your valuable feedback on the draft Action Plan.

**Overall, you indicated there was more work to do to make the community inclusive**

We have more work to do: only 40% of respondents feel included by the community.

You provided valuable insights on what life is like on the MidCoast for people living with disability and their carers, especially in these areas:

- accessibility
- footpaths/cycle ways
- health services
- information and attitudes
- public transport
- seating and parking

## How you got involved

-  528 visits to dedicated web page - 471 unique visitors
-  284 surveys emailed to individuals and organisations
-  5,963 people reached via Facebook post
-  250 'art packs' with survey distributed
-  two media releases
-  five focus groups with 25 participants
-  209 submissions received

...more seats in parks, shade, better pathways.

...better footpaths, ramps to access shops...toilets suitable for people with wheelchairs

## Working towards an inclusive community

The Draft Disability Inclusion Action Plan will help staff and elected Councillors respond to the needs and perspectives of people living with disability, their carers, family, friends and service providers.

This consultation sought:

- your feedback on issues you face
- your ideas on potential solutions

## What's next

We're now preparing the final Disability Inclusion Action Plan for your final input.

It will be available soon.

## SUMMARY AND NEXT STEPS

The aim of the engagement was to give community members with lived experience of disability the opportunity help shape the plan. The engagement process was also designed to raise community awareness of initiatives that are being planned and delivered by MidCoast Council to address the needs of people living with a disability.

How we contacted you (totals for phases one and two)

- approximately 284 emails were sent to individuals and or organisations inviting them to complete the survey
- 250 art packs were given out as part of the 'We Are One' project with Dundaloo and the Art Gallery - each pack had a copy of the survey and a QR code with a link to the online version
- two media releases were issued
- one Have Your Say website page
- one Facebook post which reached 5,963 people
- 14 updates and reminders appeared in Council's newsletter, News Wrap
- two updates appeared on the MidCoast Council intranet
- 21 people from MidCoast Council living with disability received a personal email, inviting them to provide input
- 98 people received a follow-up email to participate in a focus group

How you participated

- 124 people living with disability completed the survey
- 85 carers/service providers completed the relevant survey
- seven people attended an online focus group
- 18 people participated in a face-to-face focus group
- four people participated in a phone conversation
- 471 unique visits to the web page
- two comments were made on Facebook

Respondents to the survey were asked to comment on issues and suggest possible solutions, while participants in focus groups were asked to concentrate on potential solutions.

Key areas discussed included accessibility, footpaths/cycle ways, health services, information and attitudes, public transport, seating and parking.

The feedback from this engagement is now being used to prepare the draft Disability Inclusion Action Plan. The plan will be placed on exhibition for 28 days, allowing for further comment from the community. Feedback on the draft plan will inform the final Disability Inclusion Action Plan, which will be endorsed by Council.

## METHODOLOGY SUMMARY

The engagement period began in July 2021 and continued until March 2022.

Our survey tools supported us in identifying barriers to inclusion, providing opportunity for comment on overarching suggestions for improvement, while our focus groups helped us concentrate on the development of potential solutions.

Key stakeholders with lived experience were targeted in the engagement and included:

- people living with disability
- carers
- family
- friends
- service providers
- Council employees
- Councillors
- State agencies
- the general community.

In order to manage issues caused by pandemic lockdowns and the need to protect vulnerable people, flexibility and the use of a variety of communication tools was favoured. Tools used include digital media, traditional media, online, and face-to-face communication with key stakeholders by direct means, such as email and phone. We also offered disability-appropriate communication tools wherever possible.

The engagement was undertaken in two phases. In the first phase we gathered information on what could be improved for people living with disability. This was principally achieved through an online or hardcopy survey completed by people living with disability. A separate survey gathered information from friends, family members, carers, and service providers. The second phase of the engagement sought to identify specific and workable solutions to the issues raised. The opportunity to participate in phase two was open to the entire community; however, special effort was made to contact those who had already participated in phase one.

Care was taken to ensure input was received from sections of the community in which inclusion may be compounded by other factors, such as Aboriginality or cultural and linguistic diversity.

## DETAILED DATA

### Phase 1: Identifying issues

#### Our approach

##### How we contacted you

- approximately 284 emails were sent to individuals and or organisations to complete the survey
- 250 art packs were given out as part of the 'We Are One' project with Dundaloo and the Art Gallery - each pack had a survey hardcopy and QR code for the survey
- one media release was issued
- one Have Your Say page on the internet
- one Facebook post, reaching 5,963 people
- 12 appearances in Council's newsletter, News Wrap.

##### How you responded

- 124 people living with disability completed the survey
- 85 carers/service providers completed the relevant survey
- 362 unique visits to the Have Your Say webpage
- two comments on Facebook.

#### Major themes from survey results

Many comments focussed on enjoyment of natural, outdoor settings, such as the beaches, lakes, green spaces and wildlife. A slow but visible improvement in inclusion and the friendliness and helpfulness of locals was observed by some survey participants.

##### Accessibility

- 57% said they cannot access parks, playgrounds or sporting facilities when they want to
- 34% of respondents mentioned accessibility issues in their open-ended response
- 54% said they did not think their community was accessible

Issues include:

- Disabled parking and public toilets
- Crowded walkways
- Inclusive and adapted sporting opportunities
- Access to beaches.

##### Footpaths/Cycleways

- 66% of people responded 'no' when asked if the footpaths or cycleways were good in their area

- 29% of respondents mentioned footpaths negatively in their open-ended responses

Issues include:

- Lack of paths
- Lack of connectivity
- Condition of existing paths.

### **Health Services**

- 7% of respondents mentioned health services in their surveys

Issues include:

- Lack of Services
- Ongoing support is needed.

### **Information and attitudes**

- 33% people said it was not easy to understand important information such as bills and signs

Issues include:

- Ignorance from the wider community
- Stereotypes/stigma.

### **Public transport**

- 7% of respondents mentioned public transport

Issues include:

- Wheelchair/scooter access
- Lack of services
- Inconvenient times.

### **Seating and parking**

- 19.5% of respondents mentioned seating or parking in a negative way

Issues include:

- Lack of seating
- Lack of accessible parking – especially covered.

## **Phase 2: Identifying solutions**

How we contacted you:

- 98 people received a follow-up email to participate in a focus group
- 21 people from MidCoast Council living with disability were emailed
- one media release was issued
- one Have Your Say page on the internet was updated
- two appearances in Council's newsletter, News Wrap
- one appearance on the MidCoast Council intranet

## How you responded

- 18 people participated in face-to-face focus groups
- seven people attended online focus groups
- four people participated in phone calls
- 109 unique visits to the Have Your Say webpage.

The following table provides a summary of key issues and solutions provided by the community from all phases of the engagement. Note: Stakeholders provided comments on a range of issues and solutions, some of which are outside Council's area of responsibility. However, we have included them in the report so that other government and non-government organisations are informed about the issues as well as to provide robust data with which Council may advocate on behalf of the community.

Key issues	Solutions and suggestions
Accessibility	<p><b>Clarify the role of MidCoast Council in leading</b> the development of innovative service models and partnering to create better networking and coordination between stakeholders.</p> <p><b>Identify and seize opportunities for funding</b> such as the Regional Tourism Activation Fund Grant - Stream Two for improvements to accessibility and inclusion. Disability access tourism is an economic opportunity for MidCoast, producing benefits for all.</p> <p><b>Install more ramps</b> in a number of settings, such as Tuncurry Rockpool and shopping areas. The ramp to access the Gloucester post office and the ramp on Denison Street to enter the art gallery is a good example of what the community would like Council to keep doing.</p> <p><b>Provide more fully accessible, clean, well-located public toilets</b>, which is key to full enjoyment of community life and sporting activities.</p> <p><b>Create opportunities to participate in sport</b>, especially where these place a low economic burden on the user, such as age/disability-appropriate gym equipment in parks and fully accessible playgrounds. A group of volunteers from various sporting clubs may be formed to assist persons with disability access sporting clubs. Council could reach out to groups like Toastmasters. Funding may be available to assist clubs to participate. Council may incentivise a club's involvement through promoting its participation.</p>

	<p><b>More well-located disabled parking spaces</b> in shopping centres, sports facilities and other high-use areas as well as better prevention of their misuse.</p> <p><b>The creation of more beach access points for wheelchair-bound people</b>, such as concrete paths, matting.</p> <p><b>Better boating access</b> – such as through pontoons.</p> <p><b>The reduction of trip hazards in shopping areas</b> – one aspect is educating shopkeepers and the general community about the negative impacts of cluttered footpaths, cluttered shops and heavy, manual push-pull doors.</p>
<b>Footpaths/cycle ways</b>	<p><b>Building more accessible, wider footpaths with networking as a key aim</b>, built for accessibility from a parked car or roadway and with consideration for the dangers of walking on or crossing the road mitigated by appropriate use of pedestrian crossings and overpasses.</p> <p><b>Maintaining footpaths</b> to remove uneven surfaces, colour highlighting on steps and stairs.</p> <p><b>Separating cycle ways</b> from footpaths and making them connect to key destinations.</p> <p><b>Wheelchair / mobility scooter friendly pathways</b> for mobility and enjoyment of recreational areas.</p>
<b>Health Services</b>	<p><b>Improve access to mental health services</b> – particularly for ongoing, affordable support.</p> <p><b>The establishment of mental health support groups</b> with a focus on talking about and making visible mental health issues.</p> <p><b>Increased access to community services</b> as well as reducing physical barriers to service access such as street clutter and lack of public transport.</p> <p><b>Advocate for more GPs and a hospital in Forster.</b></p>
<b>Information and attitudes</b>	<p><b>Education campaigns to improve awareness of the role of registered assistance dogs</b> and their difference to pets, and the different types of disability.</p> <p><b>Better use of the media</b> to present empowered images of people with disability.</p> <p><b>Encourage more paid work opportunities</b> and support small business mentoring for people with disability.</p>

	<p><b>Run workshops to educate the community</b> to encourage public awareness and educate on inclusion.</p> <p><b>More free public events and inclusive community activities</b>, such as a diverse range of concerts in the park where the community can come together as one.</p> <p><b>Locally produce shows with opportunities for participation</b>, like concerts, plays and comedy shows.</p> <p><b>Create easier access to information</b>, including for audio and visual information, braille and sign language translation, to improve inclusion as well as safety in public areas.</p> <p><b>Address barriers to digital information access</b> for people who are not able to use mobile phone or internet/computers.</p>
<b>Public Transport</b>	<p><b>Clarify Council's leadership role in liaising with transport companies</b> to establish point to point accessible transport for people with disabilities, including on weekends and to events and with wheelchair / scooter access.</p>
<b>Seating</b>	<p><b>Install more seats</b> at appropriate shaded rest points along walkways and access paths.</p>

**Q23**

Do you have any ideas to help make your area better?

**Accessibility** Better access to Rockpool. Need a ramp to get in and out of the water and disabled toilets. This is a major issue there is no disabled toilets. What about water wheelchairs? There is also majority of shops in main streets have steps and you can't get into the shops in a wheelchair

**Q23**

Do you have any ideas to help make your area better?

**Info/Attitudes** **Health Services** The council to support the community teaching young children to learn to swim and also access to physical therapy, by having a fulltime staff member to staff the local pool as a covid officer and life saver as needed.

---

**Q24**

What are things in your area that make you happy?

**Nature** Clean beaches, low pollution. low crime, a caring community, Christian moral values, Family, Climate and fresh air.

---

## Q25

What things in your area are hard for you to do?

**Accessibility** Socialise but that is partly due to COVID making people fearful and the resulting killing of markets, festivals and events. I can't walk far due to my knee injuries, and there is no gym closer than 50kms, which makes the pool all the more important.

**Q23**

Do you have any ideas to help make your area better?

**Foot/cycle paths** **Accessibility** as the population in our local council area is ageing and mini are unable to drive to make pedestrian access more accessible such as better paths and accessible pedestrian crossings would make it more open to community participation

---

**Q24**

What are things in your area that make you happy?

The openness and friendliness of the local people and shopkeepers that all are prepared to go out of their way to help people with disabilities

---

**Q25**

What things in your area are hard for you to do?

**Transport** to safely navigate across any roads in our local area due to lack of safe pedestrian crossings

Access to social activities 1

Is there anything else you would like to add?

Living in Tarbuck Bay is very isolating, especially for anyone without a car. Getting around is difficult, with no cycleways, very poor roads. TV and radio reception are marginal to almost non existent, and there is very poor mobile phone reception. Also the landline phones being switched to the NBN means that every time there is a power outage the landline ceases to work, leaving us with no communications whatsoever. It was terrifying during the bushfires, with no mobile reception, landline failing due to power outage, and no radio and TV reception to provide any information whatsoever. Basically had to sit in the house and wait for the flames to come! Very traumatising!

## Q23

Do you have any ideas to help make your area better?

Foot/cycle paths

Health Services

1. Provide a repeater station for radio and TV reception.

2. Provide a mobile phone tower for mobile reception, and provide backup power for the landline telephone/NBN system.

These things should not be regarded as a luxury, but are essential for safety as well as making it possible for people to be connected to the community.

3. Build a proper separated cycleway from Bungwahl to Smith's Lake, Pacific Palms and Forster. as well as around the Boomerang Drive/ Lakeside Drive loop Bluey's Beach, so people can cycle to the shops, school. national park, and surf club.

4. Stop people constantly and often illegally clearing land at Tarbuck Bay. A few residents here do whatever they want, in the knowledge that council does nothing to stop them.

5. Do something about all the stray dogs.

There are a few here which roam quite often and are a menace. I personally have been attacked in the past.

Dogs and horses are frequently in the national parks in this area, and dogs are becoming a frequent nuisance on the beach, including inside the national parks.

6. Also please ban the lighting of wood fires in Tarbuck Bay.

A few residents here constantly burn raked up, as well as green leaves, as well as the trees they regularly cut down. There is no reason this should be allowed.

Due to the topography here, (hills on three sides) the smoke gets trapped, making it very hard to breathe all winter. This is especially bad for anyone with asthma, or worse still with any heart condition such as myself.

I originally moved here for the healthy clean air. Little did I know it would be worse for my health than living in a city.

Perhaps council could also offer some encouragement for people to get rid of wood fired home heating, by offering an incentive to switch to reverse cycle air conditioning and renewable electricity?

Surely people have a right to be able to breathe clean air?

7. Please do something about people driving their 4wds anywhere they please, including all over the mudflats of Smith's Lake.

This is something that happens all the time and needs to be stopped. It is doing terrible damage.

8. Something needs to be done to stop the ever increasing number of properties being offered for holiday rental on AirBNB etc.

If this is not done, it will become as bad as Byron Bay, with locals not being able to find or afford to rent.

It's another thing that destroys a community.

9. Racism is rampant in the area. Something urgently needs to be done to change this.

I was once stuck in Taree after being discharged from the hospital at 1am, with no way to get home as there is no transport at night, and when I asked a police officer how I could get home, his response was "go and stand at the end of the bridge and hitch hike, like the black bastards do"!

What kind of community are we living in?

It's absolutely shameful!

10. Mental health is another major problem which needs to urgently be addressed.

There are no where near enough mental health services.

One day I was in Forster and I saw a young teenage girl sitting on the steps at the rear of the bakery.

She was crying, and had cut marks all down her arms and legs.

I asked her if she was OK and needed any help.

She said she is not coping but no one cares.

It appears she is right! :-)

When I left I called police, who said there is little they can do, and I don't know the outcome of this very sad situation.

**Q24**

What are things in your area that make you happy?

**Nature** The remaining nature, which sadly is being rapidly destroyed. Eg. Until recently, at Karnang Drive in Pacific Palms there was a beautiful (and possibly the last) remnant of very species diverse coastal heath in the area. Full of hundreds of grass trees , the last remaining Christmas bells, bottlebrush, and many other native species. Then council approved it's destruction, so now it is housing, which could have been built somewhere far more appropriate.

Council needs to start putting people and the all important natural environment, before greedy developers with no understanding or care of the natural environment.

---

**Q25**

What things in your area are hard for you to do?

**Foot/cycle paths** There are few, if any local social activities/groups. Just about everything is located in Forster/Tuncurry, or Taree. With no public transport, our poor roads and no cycleway, it's very difficult to get around. All of this combined with having almost no usable communications makes it very difficult to feel like or to be part of any community here. We have two clubs, The Recreation club, and the Bowling Club, but in an area with serious drug and alcohol problems, frequent drinking should not be encouraged, but sadly it has become normalised. People need something other than sport or alcohol to bring them together, as well as transport and communications to facilitate people to get together, share interests, and have a real sense of community.

We also need more facilities to encourage younger people to live here and those few who do live here to stay. There are far too many retirement villages etc in the region. To the point where it is like living in a giant aged care village. It's not normal, and is creating a dysfunctional imbalance in our society. I myself am old, but we need a balance please! It's awful living in what has now become very well known throughout the state as "God's waiting room!" Please don't approve any more retirement villages in this region!

Is there anything else you would like to add?	The Tuncurry Rockpool area is a disgrace, even the new steps & handrails have no visual stickers on the steps & ramp (an accident waiting to happen) the ramp goes nowhere & the old ramp has never been fixed that has the terrible rusty pool fence attached. The toilet facilities are also a disgrace.

Is there anything else you would like to add? **When attending any persuit parking is the paramount problem . Council has made steets so narrow that it is difficult and dangerous to attend to everyday needs eg Doctors rooms at Beach st tuncurry where there is a large volume of teffic and the roads narrow someone will inevitably be badly injured**

---

Page 7: Tell us more

## Q23

Do you have any ideas to help make your area better?

Stop this stupid idea that narrow roads make drivers slow down , when frail and disabled try to cross busy streets , This particular strip of road between Bent and Wharf streets South and Beach streets which in my formative years had the one name SOUTH st is too narrow with cars and opening doors and through traffic [a lot of whom are strangers ]. I feel that some of the kerbside should be reclaimed to provide safer parking .This area is renowned for having a very high incidence of retirees .Stop buildings like the new service station in high traffic areas like Head street is paramount to criminal !!

## Q24

What are things in your area that make you happy?

The swimming pool at Forster called 'Bull Ring' since the pool has been regularly cleaned . Dog park.The beautiful beaches where I spent time in my youth as a lifesaver and surfer .

## Q25

What things in your area are hard for you to do?

Walk any distance or up steep grades , so going to lookouts at Bennett's and Cape Hawke are completely out of the equation .  
Walk on the beach,

Page 7: Tell us more

**Q23**

Do you have any ideas to help make your area better?

Toilets not readily accessible when needed (too spread out). More ramps (eg bullring - cannot get around edge if not entering the water) and rails (often rail only on one side). Footpath surface area and connectivity (often switches from one side of road to the other). Beach access limited due to steps/stairs.

---

**Q24**

What are things in your area that make you happy?

Social distancing. Beaches. areas to raise children (parks etc). Nice place to live.

---

**Q25**

What things in your area are hard for you to do?

Finding nearby toilets. Getting onto beaches. Finding a disabled car park. Getting into some shops (no ramp). Trying to park and access markets and events (eg NYE).

**Q23**

Do you have any ideas to help make your area better?

More disabled parking in better places. I struggle to walk and there is only one disabled spot in Wharf street and its always taken. The two other spots require crossing a road. EVEN footpaths would be nice too and more of them sometimes have to walk on the road because there isn't a footpath.

Is there anything else you would like to add? **Mental Health conditions are not visible and not talked about, but in mitigation its more challenging because it's a small country town. Local businesses could be more proactive when it comes to creating volunteer opportunities for the community but again this speaks to lack of visibility of people with mental health issues.**

**Q23**

Do you have any ideas to help make your area better?

Support groups with a focus on talking about and making visible mental health issues. Access to group counselling with a qualified and experienced mental health professional to make ongoing counselling accessible to inclusive to everyone in the community.

**Q23**

Do you have any ideas to help make your area better?

Media could present people with mental and physical disability in society showcasing their ability to overcome adversity or appropriate assistance that enables us as the norm rather than the current ideals of perfection that deny reality and to inform past stereotyped ideas belonging to institutional past. We all experience some level of disability at some time in life even if it's just hobbling on crutches after an accident

---

**Q23**

Do you have any ideas to help make your area better?

Firstly, I wish to congratulate Council on the Queen Street upgrade and ramp to access the Gloucester post office and the ramp on Denison Street to enter the art gallery.

Wheelchair accessible transport is extremely limited in Gloucester and MCC should collaborate with Newcombe coaches (and other groups) to establish a point to point accessible transport service to enable people with disabilities to wisely use their NDIS funding to access the broader community.

Establish an online Zoom/MS Teams NDIS network of service providers and consumers to enable direct communication between all stakeholders about what works and doesn't work for them in terms of barriers to inclusion.

---

**Q24**

What are things in your area that make you happy?

Leadership from MCC to develop innovative service models that realise inclusive access for people with disabilities.

---

**Q25**

What things in your area are hard for you to do?

Inaccessible facilities at the Tennis, Oval and spectator vantage points generally at Gloucester.

Wheelchair accessible transport.

**Q23**

Do you have any ideas to help make your area better?

Upgrades to public amenities essential. To many toilets without separate disabled access. Having disabled cubicles inside male and female toilets is inappropriate as I rely on my husband to assist me when needed. Also disabled parking is an issue at these amenities. For example at the bullring at Forster where the toilets have been upgraded no extra disabled parking has been provided, same at pebbly park where the single disabled park is 50 metres away. It's great to have these two toilets upgraded but access to the toilets blocks needs to be a major consideration.

---

**Q24**

What are things in your area that make you happy?

Having mobility and vision issues makes life difficult so going out for lunch or coffee is enjoyable also spending time with grandkids. Swimming at Tuncurry pool was something I enjoyed until it was closed now have to travel to Nabyac pool when it reopens.

---

**Q25**

What things in your area are hard for you to do?

Due to mobility issues I cannot access beach or ocean pools. Cannot walk on sand or swim in moving water. Can of course use leisure centre but is quite expensive if you want to swim daily. As stated previously accessing toilets is very difficult.

**Q23**

Do you have any ideas to help make your area better?

Improve roads, foot paths, garages, shopping centres

The toilets in behind old Coles are filthy. Needles, no toilet paper. I had to take my 90 yr old mother to these toilets and it was disgusting!!

I am filling this in for my 90 yr old mum. It is so dangerous with the pot holes, broken concrete, tar uneven ground. Not enough clean public toilets around Taree centre. It takes but a small lip of concrete to cause a fall.

**Q23**

Do you have any ideas to help make your area better?

MORE disabled parking WITH bollards to stop inconsiderate people parking between disabled spots, an ACTUAL parking officer to fine people without permits, the ability to send COUNCIL a photo of illegally parked cars. COUNCIL does not CARE about people who NEED these spots and people who don't need them using them. Shopping centres NEED more disabled parking. Also foot paths shouldn't be so steep from gutter to shops you can't walk on or push a wheel chair on, like at the post office in Taree. the ramps to the road at zebra crossings also should be smooth, not lumpy like the round about at Manning & Albert st's. Also ramps from foot path to street at disabled spots are too STEEP and wheel chairs get stuck!!! This council does NOT CARE! This survey will accomplish NOTHING, its just all show!

---

Page 7: Tell us more

## Q23

Do you have any ideas to help make your area better?

The bubbles for vision impaired near crossings can be a trip hazard if you slip on them. The uneven texture is the downfall.

## Q24

What are things in your area that make you happy?

The areas along the river bank. Wonderful area. Has plenty of spots to sit and rest. The bike track is also great. I have found it a good, flat place to walk and the bike riders have been very considerate.

## Q25

What things in your area are hard for you to do?

Getting in and out of the swimming pool. Dodging the obstacles created by placing thins outside shops where people have to walk. Not worth the risk. The door at the butcher's end of the arcade from the old Coles carpark through to Victoria St. Seen it close on a few people, myself included.

**Q22**

Do you have any ideas to help make your area better?

I am able to care for myself and get around but I am acutely aware of how difficult it is for some others - those living with a disability and especially people whose disability is accompanied by or resulting from age related issues.

---

**Q23**

What are things in your area that make you happy?

Nature, community, community activities, U3A

---

**Q24**

What things in your area are hard for you to do?

Again this survey is not well constructed for me to comment on barriers to life for others. I have some health issues that prevent me from joining some physical activities but others are far more affected than me. Barriers of information access for people who are not able to use mobile phone or internet/computers is a big one.

**Q22**

Do you have any ideas to help make your area better?

**Foot/Cycle Paths** More accessible footpaths and also better road maintenance. It is hard to use mobility scooters on so many of our roads. We do not have one single road in Coopernook that hasn't been "patched" to death and it is so hard to use mobility equipment on them as there are no accessible footpaths.

What are things in your area that make you happy?

TBA

---

**Q24**

It is hard to know where I can get MLAC keys from a lot of the time, if accessible toilets are needed to be used.

Is there anything else you would like to add? **As a person who has been employed in the area of disability for over 20 years I consider that I have the expertise to comment that the Village of North Arm Cove is in no way accessible for people with a disability. The cove is cut in two as Council have not completed a throuroghfare connecting both end of The esplanade which in turn allows reasonable access to come in and out of the Cove. Wheel chair access is non existent as are any foot path facilities for poeple with a disability to safely navigate their way and have access to amenities on an equal basis as the non disabled residents of North Arm Cove. I think it is reasonable in 2021 that North Arm Cove at the very least has well serviced roads which all people can safely navigate. I would like to make note that I not referring to Non Urban roads. This has been a long standing issue for the urban population of the Cove. Kind regards**

**Q22**

Do you have any ideas to help make your area better?

**Foot/Cycle Paths** Provision of decent roads and paved areas all around the Cove. Not just token areas where some people can gain access

**Q23**

What are things in your area that make you happy?

Lovely areas ie bush land and water ways.

---

**Q24**

What things in your area are hard for you to do?

Assisting people with a disability to access the above environments. Navigate around the area due to lack of a connecting road which also creates confusion when trying to locate places in the Cove

Attitudes of wider community

**2**

Employment and/or volunteering opportunities

**1**

Access to social activities

**1**

Is there anything else you would like to add?

**The general community has very, very little knowledge of disability. Very few groups allow for inclusion of people with disability and, in fact, some make it very hard for people with disability to be included. There are still some astoundingly poor attitudes toward people with disability in the wider community.**

---

Page 5: Tell us more

**Q22**

Do you have any ideas to help make your area better?

A strong emphasis by council on community inclusion and business development. Currently there is no emphasis at all from council on this and that is so far behind successful regional councils that we should be ashamed. It's time to genuinely make this a priority and not give it tokenistic value.

---

**Q23**

What are things in your area that make you happy?

We have a large group of people who want to make a difference and to improve our community and to promote us as a fantastic place to live. Can council PLEASE get on board with this.

---

**Q24**

What things in your area are hard for you to do?

Available rental housing in this area is a disgrace. Public transport is almost non-existent. The complete lack of foresight from council on ways to improve our town to make it an even better and more attractive place to live is extremely frustrating. I want council to work with people who have the vision to improve our town to get on board and stop finding ways and excuses for it not to happen. People with disability deserve much much better than what they currently receive from council and the wider community.

**Q22**

Do you have any ideas to help make your area better?

Yes I do - multiple accessible improvements and upgrades in the Diamond Beach village that would fit in with Council programming. Improvements that would benefit not only people with accessibility needs but the whole community and visitors alike. So, I put much time and effort into applying for the Regional Tourism Activation Fund Grant - Stream 2 for Improvements to accessibility and inclusion. A grant of up to \$500,000 (with no Council co-contribution required) ,in conjunction with Councils then Grant Officer.

Council as the asset owner was required to be the lead applicant. I spent weeks gathering wide and excellent community support for these varied accessibility works and the grant application, with Council staff and managers approval and the support of Destination North Coast.

Only to find out well after the closing date that Council DID NOT even submit the application. I was given no reason only that it was not submitted due to staff ill health??

**Q22**

Do you have any ideas to help make your area better?

**Accessibility** Upgrades to amenities is essential. As a carer for my wife I find it difficult to access disabled toilets. Some have been upgraded but parking is an issue.

---

**Q23**

What are things in your area that make you happy?

Spending time with grandkids, swimming, exercising. Doing these things is great but as I care for my wife 24/7 it is very limited.

---

**Q24**

What things in your area are hard for you to do?

As stated accessing disabled facilities with my wife is an issue. Before going anywhere we make sure that we can get to these toilets, so this limits where we can go.

Is there anything else you would like to add?	Re footpaths etc, where there are none and there is a need to use the road, excess gravel left from resurfacing is a hazard for those who can walk with the aid of a stick, but still have difficulty lifting a leg - the loose gravel becomes a trip hazard.

Unfortunately I won't be able to participate tomorrow.

At this stage the education package has not arrived from the assistance dog organisation so wanted to present so once that has arrived I will deliver it to Council.

The LGA is lacking is the facilities to use the MLAK. The only facilities I am aware of are private run facilities at Stockland rather than council provided facilities.

I have found other councils in NSW and interstate offer these facilities. It is very difficult as with an assistance dog and disability aid( walker or wheelchair) to use facilities as they are not designed for both to be able to fit in the cubicles.

The other awareness is handlers with assistance dogs being denied access to facilities with the belief that the council health department will fine them if an assistance dog is allowed in their premises.

- How about a beach accessible mat for wheel chairs.
- more parking for wheelchair vans as there is really only the back of manning mall or IGA. And also the bumpy roads when you are in a wheelchair in the back of a van is very uncomfortable. At Bushland there needs to be a footpath up past the school as if you're in a wheelchair you can only use road and it is a main road so becomes very dangerous.
- Taree needs better walking paths

Whilst I encourage the continuation of such plans that involve easy of access to business, public buildings, pathways and busstops etc.

My only suggestion is that there is education on how the community can support access to services available in the public space like Mlack etc.

Hey [REDACTED]

These concerns came from a community member during our pop up at Little Street Forster.

- The footpath along little street is uneven and not safe for elderly people
- The use of mobility scooters on the little street footpaths is dangerous. People are not driving the scooters in a safe manner with care to other footpath users.

██████████ (living with Disability in Taree), ██████████ advocate and carer)

Cerebral Palsy – successful business – became an advocate with people with disability – awarded an OAM – Able transport  
Verbatim words from ██████████:

Moved to Taree and lost his lifestyle and abilities as an advocate.

The problem is people with disability and old people are afraid to speak up when I am not. I am a talented person in a unique body. There is not many around who. They may look at me but that is their problem. You never ever know how we may become tomorrow. Government does not have a clue about what is involved. How do they learn any different if there is no one me involved?

I can tell you I am very well-known and been through a lot of places where every person will never go. Where I have always been very well received, even at public meetings. I often have standing ovation about the way I speak.

MidCoast Council has never met a person as unique as I am.

I have not been able to go and speak and organise different things for other people like me. I have lost my independence. Not having my wheelchair. Where we are ██████████ there is no footpath and what there is not quite wide enough – if you miss you are over the edge. And what else have you got to travel up the side the road with dozens of potholes and cars at the same time. And if there are cars parked on the side of the road, you've got to go out around them and meet some idiot. Cars should not be parked, should not be built without a footpath – it is crazy!!

## Comments

. Response to MidCoast Council's Current Disability Inclusion Action Plan

I am commenting from the perspective of an older person – who has long and deep past experience of caring for others in this group and can see the time fast approaching when nuanced and inclusive methods are enacted to accommodate ME!

Page 1

- The title Disability Inclusion Action Plan I see as unfortunate. So many people who would appreciate developments and support who fall within this Plan do not see themselves or identify with Disability – especially older people. Possibly a better title might be Whole of Community Action Plan or Remove the Barriers Inclusion Plan or just Community Inclusion Action Plan?
- From Statement of Commitment
- First point includes accessibility and inclusiveness and third point mentions ongoing dialogue. These both suggest the ease of communication with the prime stakeholders in this Plan – people with a disability - and most of them are older people.
- Council needs to balance its Environmental Policy with this commitment. I understand and enthusiastically support council's commitment to sustainable environmental practices which includes reducing paper consumption. But it is not waste or excess consumption when distributing high quality written communication to support people with a disability (usually older) who are already marginalised and need all forms of communication available as they do not have mobile phone/computer/internet access.
- There is not just an ethical/social argument for this but also an economic one as shown by plenty of peer-reviewed research indicating a significant improvement in mental and or physical health when meaningful activity of the older person's choice is introduced or maintained. (I can put together the research if it would help ) Each costly hospitalisation or medical intervention wipes out the environmental benefit of saving the paper/printing resources This applies to a shrinking but still important and very vulnerable number of people in our community. For example of U3A's approx 324 current active members, about 15% cannot communicate via mobile phone/computer.

Page 4

- I feel that the Aged Care Act 1997 and its guiding principles are also relevant when discussing the needs of older people as many of them are in Commonwealth –funded aged care programmes. Further guidance is in the Aged Care Diversity Framework. Of course, legally these Acts apply to Commonwealth Aged Care systems but the intent parallels council's need to accommodate the diversity within the group of older people.
- Also the Age Discrimination Act 2004 is relevant and can remind us of how we can inadvertently practice age discrimination in institutional and organisational settings as well as generally in the community.

Page 5

- The definition of Disability you have used adds (with a health condition) as a descriptor that implies exclusion of someone who is frail aged, for example, but does not identify as having a health condition. I feel this is an unfortunate limiting factor on who is to be considered in your Plan and could be modified. To clarify, I use the illustration of a breast-feeding mum needing assistance or support in community infrastructure and programmes but they would not be described as having a health condition. There is so insult or shame in needing some assistance or consideration at different stages of life in our community.

Page 6

- Second last paragraph: Strategies and actions outlined in the DIAP have been linked to key directions from our Community Strategic Plans to ensure alignment with community priorities and aspirations. This also ensures a strong linkage across our current Delivery Programs particularly given that a new Delivery Program for our merged entity is not due for development until the 2017/18 financial year.

This doesn't make sense.. typo perhaps?

Page 8

- Last paragraph talks about ongoing consultation with stakeholders... I would be interested if it contained some info on how this will happen... what mechanisms will be used?

Page 10

- Statistics/percentages are given on tertiary and no tertiary qualifications. You have used the words Just 7.1% have a university degree. This is quite a judgemental or derogatory statement when you put in just. To me it could be interpreted as insensitive or insulting and maybe you would avoid this if you eliminate the word, just. Actually this statistic and some of the others might be hard to show relevance beyond painting a picture of how bad the place is! All these are interesting stats, but I would hesitate to include them all – especially this one when you are looking at University degrees being relevant to Disability inclusion Plan

inclusion Plan.

Page 30

- Info sources are again only electronic communication sources are suggestion for info dissemination, this is discriminatory of all those (usually older) people without this ability.

Page 31

- Ageing and disability service providers – I suggest you add GPs and Medical Centres to info sources

Page 32

- Info sources are again only electronic communication sources are suggestion for info dissemination, this is discriminatory of all those (usually older) people without this ability.

Page 33

- Recruitment of volunteers. This notes to avoid jargon – add acronyms to this... you have used EEO? Not obvious what this is.
- Use existing community group newsletters to advertise volunteers required eg. U3A, Rotary, other local Clubs as older people more likely to have time to volunteer.

- Accessibility
  - o Must use walking stick or walker
  - o Too few parking spots at the bullring – need more accessible parking – lots of people use the bullring who need accessible parking – the pathways and access at bullring is great but parking is awful. Very dangerous for to park on the street at the bullring
  - o In Forster/Tuncurry – retiree area and the infrastructure doesn't suit
- Footpath
  - o Used to walk the breakwall – people on push bikes riding on the footpath – should be made to walk on the breakwalls
  - o All parking in the council area should be nose to curb
  - o No footpaths available in his area – in Tuncurry
- Closure of Tuncurry Swimming Pool is a big issue
- Dog Park – Seats at the dog park are not installed correctly and the brackets aren't strong enough – He was sitting on a seat and he leant down to get ball and the seat collapsed – apparently someone snapped and reported that
- People rely on the phone to make connection but when he calls to talk to a compliance - officer and nothing is done, it is very frustrating and people with disability feel let down and frustrated because they can't make it to Taree to make complaints etc.

- Not enough disability parking – need to consult with the community about changing or implementing
  - Access to beaches
  - o Advertising for people to come and retire here and now we have huge amounts of older people here – the infrastructure does not suit
  - o Disability parking demand has increased significantly but supply has not
  - o Accessible toilets needed – especially at Tuncurry Park, the café has grown and the new park attracts people – not enough parking at Tuncurry Rockpool
  - Silver Salties the surf club have been hosting lots of events for retirees at Cape Hawke
  - Not being able to use public transport with scooters or wheelchairs
  - Trying to get people in the habit of not driving – active transport or a shuttle bus that goes from Tuncurry to Forster backwards and forwards
  - Stocklands in Forster have wheelchairs and scooters available to use while you're there
  - Lack of connectivity of paths – curbs to allow people with scooters to cross or continue etc – toilet block on little street near the boat sheds
  - Hardly able to use taxi's because they can't host [REDACTED] bigger scooter so have to order to the biggest one - the vouchers are great to have but the cost of taxi has gone up a lot

Carers Support Group - Forster

All with family members in the area

- Their involvement in the community is quite limited and a lot of that comes down to mobility and safety – pedestrian crossing, dangerous footpaths – makes people isolated
- We have to involve our family members in decision making – it is hard for them to get their ideas across
- Signage – meaningful and in picture form – Stockland's bins for example – colour coded
- Danger signs – signs at the beach
- Opportunities for our People with a disability to lead a productive, good life – hard to get people to think more laterally about what People with a disability can do rather than what they can't
- How do we talk about employment – shorter hours
- Adequate space for wheelchairs – access to the beach – master plan – can they take responsibility
- A little bit more out there with promoting accessible tourism
- MOBI mats
- Beach wheelchairs – were they at Beach Bums – Brian Wilcox
- Ronald McDonald houses – who uses them?
- Sailability
- Pedestrian Crossing - from the catholic church all the way up to woollies –
- Lights at Maccas – Forster
- Cycleways need to be completely separate from car lanes
- Opening up avenues for people to think about how to include People with a disability
- Breaking down barriers to get People with a disability included in employment and groups
- People are worried about the 'what if' – exclusion isn't always malicious- lack of confidence
- People sometimes need to adapt and change for People with a disability to accommodate them.
- People with disability being on interview panels for related jobs – MidCoast Assist or MidCoast Council
- Carers need respite – LARO used to do holidays for them – can MCA do anything about this? Facilitate Carers Gateway to get this happening? Even if NDIS paid for participant
- Carers NSW
- Carers Week – Can we organise something with service providers

– 23/03/22 - walks with stick and can only open left hand – spinal cord injury

- Bullring good example of a couple of things
  - o Getting down steps is really awkward and only one rail
  - o If you were in a wheelchair and wanted to cruise around the bullring you can't actually get down – no ramp
  - o Lots of places are lacking rail, ramps and lifts
  - Accessible tourism app – spinal cord injuries Australia
  - Accessible parking – few and far between
  - Senior parking and accessible parking
  - Stocklands – accessible parking 100m away from the building themselves
  - Slide mechanism for toilets rather than turning them – too fiddly – more hygienic
  - Footpaths are hit and miss
  - People don't respect the shared path – signage? Education? – wider footpaths
-

MidCoast Assist - 17/03/2022

Rockpool amenities

More 80s music

Social night every second week that will cater to this group, Sporties are no longer accommodating

More outdoors events that are more suited to people with disabilities – lakeside is quite expensive – more places for people to participate –

Community perspective needs to be changed – there is a lot of stigma in the community

Disco kind of activity – with in-kind of support – break down the silos between the services – it is very competitive in this space so services in working hard – MidCoast Council

Access to senior Citz centre for space

Shows in Club Forster – Communications team – Use Council resources to promote – Can council support these events in-kind

MCA don't feel appreciated or that they are backed by Council.

People are moving to the area because the services are so good in the area

Aspergers syndrome adhd depression

- We don't have a lot of space here at MidCoast assist – there needs to be more room to do more activities – The old building  
- Lack of knowledge people who don't have disability – social night at Sporties in Tuncurry the environment was different, and someone was really rude to someone with a disability and it wasn't a safe place.

- Training for customer service

- There needs to be more information

- has an invisible disability and so people think he is just a-typical

- No empathy

- Lack of understanding for People with a disability how relationships, friendships work – Council to support services to run training on how these things work – more program for People with a disability to understand social interactions, relationships and friendships

Companion cards are a huge issue in this area – nowhere accepts them – excludes people with disability

██████ – 24/03/22 - face to face

- Regional areas – anything to do with having a disability, you have to fight for otherwise you are left behind and if a child has disability and parents aren't able to advocate for them, the child suffers
- High turn over of allied health professionals – results in a lack of continuity of care
- More employment opportunities for people with disability are needed
- More Graduate programs within Council in different fields
- ██████ is unable to move away so it is difficult to find work
- Stigma – when you have a physical disability, people assume they have intellectual disability
- people are uninformed
- Café and restaurants have tables and chairs in the way, spaces aren't big enough or the doorways aren't big enough
- More opportunities for people with disability to come together to do things – outside of support services

Focus group - Zoom - 9th March 2022 - 3 participants.

Issues discussed:

- Footpaths and Accessibility is a major issue, unfortunately a lot of the capital works relies on funding. It is important to collect the data so we have robust evidence for funding applications.
- There is an increase in population on the MidCoast and an increased need/desire for accessible tourism opportunities.
- ██████ said one of the big areas we could work on is having a volunteer group of people form a type of partnership once a month or so - take a participant who is interested in a sport eg: cricket and introduce them to teams and in some way participate. Or motorcycle club – let participants come along and watch the pits etc. Toastmasters is a good example.
- Council has just become members of Disability Sports Australia and we are looking forward to the opportunities for our community that that will provide.
- Public transport is a big issue - not many buses that are accessible to people using wheelchairs or scooters and buses often run at inconvenient times/only the school bus is available. Private transport options are expensive and often hard to book.
- Accessible launching ramps into the rivers and lakes - could help with accessible tourism.
- Inclusive playgrounds are very important
- Adapted sporting opportunities would be welcomed

Focus Group - Zoom - 11th March - 3 participants

- Access is a major issue. Parking, public toilet. Access to beach. Footpaths and cycleways – useable, connect to a place 66% of survey respondents say they are not good. Isolation due to bad footpaths. Not wheelchair accessible.
  - The Community does not understand inclusion - results in stigma and stereotypes
  - Transport is a massive issue – there's really no public transport. Distances are quite large. A large portion of people's NDIS funding goes to transport. [REDACTED] asked about whether Council has funding. [REDACTED] said no but we can advocate.
  - allied health services need resourcing because there is a large waiting list
  - [REDACTED] said there are good footpaths in Harrington. [REDACTED] said the same for Old Bar but Taree doesn't enough. There's a Riverwalk but access to services in Taree is not good enough.
  - Footpaths are a big problem in the LGA - Council requires funding to address issues.
  - Promotion and inclusion of people with a disability would help the community understand them more - need to use the media and libraries to promote
  - Transport is the dominant issue – leads to isolation. When Council is planning works, somebody with a disability needs to be involved with that.
  - if we cater to people with a disability that also suits older people and parents.
  - Council thrives in partnering and that's probably where most can be achieved
-

Focus Group - Zoom - 14th March - 5 registered, 1 participated.

- It is important to speak with people with a disability when developing this plan.
  - The document will be on public exhibition for 28 business days so people can view and comment
  - It is challenging to connect with people who are not associated with a service provider.
  - Most respondents to the survey had a physical disability
  - Front facing staff need more disability awareness training and education
  - A challenge for people with vision impairment is alfresco dining and cluttered pathways
  - Council's Community Inclusion and Wellbeing Reference group walked around Taree CBD to identify issues with walkways and cluttered areas.
  - People sometimes feel anxious when interacting with people with a disability, need to normalise it and include.
  - Destination Management - there are some great attractions in the MidCoast. Need to promote accessible tourism - encourage businesses to increase their accessibility but also to promote what they already have available
  - it would be great to have a business case to present to Destination Barrington coast to show why it makes economic sense to do complete holidays for persons with disability.
  - In the old plan it was great to see mapping against council areas. How do you measure progress in an action plan when you're looking at so much – maybe take it to a higher level and use examples?
