Water & Sewer Developer Charges

Water and Sewer Developer Charges are calculated and charged in accordance with the Council's adopted Equivalent Tenement Policy

Fees for Service:

A development or other activity that has not generated a requirement to pay developer contributions under Section 306 of the Water Management Act, will be issued with an invoice for payment of the equivalent of developer contributions under Section 608 of the Local Government Act

Water Connection Charge:

- Bulahdelah, Gloucester, Manning, Tea Gardens, Harrington & Stroud Areas: \$6,485.00
- North Karuah - Nil

Sewer Connection Charge:

- Service Catchment Area - Bulahdelah, Stroud, Coopernook, Lansdowne, Harrington, Manning Point, Gloucester, Old Bar, Forster, Taree & Wingham: \$8,950.00
- Service area Hawks Nest, North Karuah & Hallidays Point: \$3,250.00

Amalgamated Lots Connection Charge:

Where existing amalgamated parcels of land become separated into individual parcels of land ('de-amalgamated') a charge equivalent to 1 equivalent tenement (ET) will be levied where these parcels of land have been amalgamated for more than a 10 year period, if the period of amalgamation is less than 10 years then payment of unpaid charges for those years the parcel of land has been amalgamated will become payable.

MidCoast Council will not issue a Certificate of Compliance for any development until these charges have been paid

High Consumption Tariff:

For non-residential development proposals which are identified to place high water and sewer demands on the water and/or sewer networks, a high consumption tariff may be applied to the development in lieu of upfront water and sewer s.64 developer contributions. The tariff to be levied on a development shall be determined upon application for assessment in accordance with s.64 and s.68 of the Local Government Act 1993. The application of the high consumption tariff is at the sole discretion of MidCoast Council and shall be applied on a case-by-case basis through internal assessment and endorsement from the Director of Infrastructure & Engineering Services

Disclaimer regarding costs for construction work

It should be noted that Council's fixed fees for construction work cover 'normal' conditions expected to be discovered during construction work. Where 'abnormal' conditions are encountered such as:

- rock, requiring heavier construction equipment
- significant tree root intrusion
- water charged ground, requiring dewatering equipment
- significant or unexpected utility services (eg stormwater pipes, optic fibre, underground power etc)
- steep ground
- difficult site access, due to the presence of existing structures adjacent or over the utility service
- a request to undertake the work using directional drilling either to comply with the requirements of another authority, or where
- this work has not specifically been allowed for, or
- traffic control is required to ensure the safety of construction workers

Council advises that additional costs may be incurred to complete the work, and the applicant agrees to meet the additional costs to complete the work. Wherever possible, Council undertakes to warn the applicant of potential additional costs where a site inspection indicates the above construction difficulties may occur. However, the final cost for the work will be assessed by the personnel after completing the work and additional costs may be invoiced to the applicant at Council's sole discretion.
